

TWIN WITH US! Join us for an exciting learning adventure!

The Canada / Ethiopia Elementary School Twinning Project **2012-2013**

Every year, the Canadian Network for International Surgery (CNIS) teaches thousands of elementary students in Africa non-violent conflict-resolution through our *Peace Building for Elementary Schools* course. For the 2012-2013 school year, CNIS would like to invite eight Canadian elementary schools to twin with eight elementary schools in Axum in northern Ethiopia.

We invite your school to become a “twin” in this fun and free project. Your school will connect with the Ethiopian students through letter-writing, art projects, poster making and create friendships across borders!

“Thanks for the opportunity to participate in this project. It was a fantastic learning experience for my students!”
Participants in the Twinning Project 2011-2012
